comar@pathwaysforlittlefeet.org

There are millions of children in the world without parents or families to care for them, and there are families eager to adopt. However, the up-front costs of an adoption can be prohibitive. Pathways' purpose as an organization is provide interest-free loans to families so they can afford to adopt a child.

Since our inception, we have helped over 425 families bring home over 500 children.

Your gift will support our program to unite children with loving families.
